AMENDMENTS TO THE CLAIMS

Please amend the claims to read as follows, and cancel without prejudice or disclaimer to resubmission in a divisional or continuation application claims indicated as cancelled.

The following list of claims is intended to replace all prior versions or listings of claims in the application.

Listing of Claims:

1. (Cancelled)
2. (Cancelled)
3. (Cancelled)
4. (Cancelled)
5. **(Currently Amended)** A device as claimed in claim [[1]] Z, wherein the second antenna is a patch antenna, slot antenna, monopole antenna, dipole antenna or planar inverted-L antenna.
6. (Canceled)
7. **(Currently Amended)** ~~A device as claimed in claim 3 An integrated antenna device comprising a first, dielectric antenna and a second, electrically-conductive antenna, wherein the first and second antennas are not electrically connected to each other but are mutually arranged such that the second antenna is parasitically driven by the first antenna when the first antenna is fed with a predetermined signal wherein the second antenna is connected to ground, and wherein the first and second antennas are configured to radiate in different frequency bands;~~
wherein the first antenna comprises a high dielectric antenna formed as a dielectric pellet mounted on the first side of a dielectric substrate, a microstrip feed located on the first side of the dielectric substrate and extending between the substrate and the dielectric pellet, and a conductive layer formed on a second side of the dielectric substrate opposed to the first side of the dielectric substrate[[,]] ; and

wherein an aperture is formed in the conductive layer or the conductive layer is removed from the second side of the dielectric substrate at a location corresponding to that of the dielectric pellet.

8. (Cancelled)

9. **(Currently Amended)** A device as claimed in claim [[1]] Z, wherein the second antenna is located adjacent the first antenna.

10. **(Currently Amended)** A device as claimed in claim [[1]] Z, wherein the second antenna extends over a top surface of the first antenna.

11. **(Currently Amended)** A device as claimed in claim [[1]] Z wherein the first antenna is adapted to radiate at a frequency lower than the second antenna.

12. **(Currently Amended)** A device as claimed in claim [[1]] Z wherein the first antenna is adapted to radiate at a frequency higher than the second antenna.

13. (Canceled)

14. (Canceled)
